The Latin or GreekClassics, or the French to the number of four terms, may be substituted, term for term, for the less important studies in the above course; and Surveying, with Field Exercises, and Civil Engineering, in the case of young gentlemen, will be added.

Young gentlemen pursuing the above course either alone, or in connection with one or both of the Ancient Languages, will be classified with the Classical Department; and when completing the course, will have a part in the Graduating Exercises, and be entitled to a Diploma. Young ladies completing the above course, in connection with the Latin or French, or both, without substitution, will be entitled to that distinction in their diplomas. As a matter of fact, most young ladies, who graduate, pursue the regular Latin course. This is strongly recommended; to which the French, at least four terms, should be added.

EXAMINATIONS.

There are Public Examinations of the School semi-annually, at the close of the Fall and Spring Terms, before a Committee chosen at the direction of the Trustees.

On Wednesday, at the close of the Spring Term, there is an Exhibition of Original Declamations by the Senior Class, and the public assignment of diplomas to the Graduating Classes of gentlemen and ladies.

The following gentlemen were the Committee for the last two Examinations:

Rev. Charles A. Downes, *Lebanon.*
Rev. J. DeF. Richards, *Weathersfield, Vt.*
Rev. David S. Frost, *Andover.*
Rev. Jonathan Clement, D.D., *Woodstock, Vt.*
Rev. Henry E. Parker, *Concord.*

NOTICES.

Kimball Union Academy is situated in Meriden *parish*, Plainfield, N. H. The Post Office address is Meriden, N. H. The nearest depot on the Northern and Vermont Central railroads is at Lebanon, seven miles distant;—the nearest on the Sullivan and roads connecting south, is at Claremont, or Windsor, Vt. A daily stage leaves Claremont in the morning, and Lebanon in the afternoon, for Meriden, on the arrival of the cars. Private conveyance can be procured from Windsor.

The Institution was incorporated in 1813. The nett amount of its funds is about $50,000.

The government and instruction of the students are committed to five *permanent* teachers—three gentlemen, and two ladies, with other assistants, as they may be needed. A full hour at least is given to every important recitation.

A very extensive and valuable *apparatus* is provided, sufficient for Lectures and illustrations in Chemistry, Natural Philosophy, Astronomy, Practical Surveying, and Civil Engineering; with Outline Maps and Charts for Geography and History, together with a handsome collection of Minerals and Shells.

☞ Students will not be excused to be absent in term-time without urgent reasons; nor to leave *before the close of the term*, unless it is *absolutely necessary*. Parents and guardians are earnestly requested to make such arrangements that absolutely no absences shall be necessary, not even over the Sabbath. A single absence is always attended with a great loss—habitual absence is fatal to improvement.

Diplomas will be awarded to such, in either department, as complete the full course of studies, with the seal and official signature of the Institution.

☞ Applications for teachers, ladies or gentlemen, for Winter or Summer Schools, if sent in early, will be promptly attended to.
